

1 THE NIGHT BEFORE

- On the **pitch laptop**: open **buildtraining.vercel.app/demo**, sign in, and click through **every tab in both roles** once. All route code loads; the demo data itself is local, so flaky school wifi can't touch it afterward.
- Palette icon in the demo bar → pick **Wadsworth Grizzlies**. Optionally set the backdrop (Default cream / Off-white / Off-black — off-black in Wadsworth red is a strong projector look). Both persist in that browser.
- On **your phone**: same login, same theme, then **Add to Home Screen**. This is the hand-them-the-phone prop and the wifi backup (hotspot).
- Open **buildtraining.vercel.app/deck** once so fonts are cached. Arrows / space to advance; **tap the splash to skip it** if you need a fast restart.

2 AN HOUR BEFORE

- Exit demo and **sign in fresh** — each new login reseeds a clean slate but keeps the Wadsworth theme.
- Laptop: Do Not Disturb on · browser full screen · bookmarks bar hidden · zoom 100% · charger in.
- Two tabs open, in order: **/deck** and **/** (the demo, already signed in).

3 THE ROOM — DECK, DEMO, DECK

- **Deck slides 1–5** (~4 min): the problem, the four-step loop, what coach and athletes each get.
- At **slide 6** (the O-line Monday) say **"let me just show you"** and switch tabs — the slide is deliberately the demo script.
- Run the **live demo** (~7 min, script below).
- **Back to the deck, slides 9–12** (~3 min): why it matters, Built ten minutes away, the pilot. Pricing verbal.

4 DEMO SCRIPT — COACH ROLE, WADSWORTH COLORS

BEAT	DO	SAY
Roster	Scroll the athletes: position + class chips, weekly targets, red "gone quiet" dots.	<i>"The red dot is a kid who stopped training. You see it in July, not in August."</i>
Bulk program	Filter → OL → Program → build (or AI-generate) a lower day → assign to the group.	<i>"One pass for the whole O-line. No sheets, no group text."</i>
Athlete	Switch role → Jordan's Train view. Log a set, start the rest timer (voice cues), finish for the confetti. Better on your phone — hand it to a coach.	<i>"This is what every kid carries. It installs from the browser, no app store."</i>
Numbers	Coach role → Numbers. Flip Total → Bench, expand past top 3, filter by class or position.	<i>"A PR logged on the floor moves this board the same day, not next test day."</i>

Chat	Message Jordan from his page; flip roles to show it land with the unread badge.	<i>"Feedback lands next to the workout, not buried in a text thread."</i>
Colors	If asked whether the branding is real: open the palette and flip schools live, then flip back. Also show cream ⇌ off-black.	<i>"Your program, your colors — the kids' home-screen icon is Wadsworth, not a vendor."</i>

5 IF SOMETHING GOES SIDeways

- **Weird data mid-demo** → exit demo, sign back in: instant clean reseed (theme kept). Or Settings → Reset demo data.
- **Wifi dies** → everything already visited keeps working; hotspot from the phone if you need a fresh route.
- **A 404 appears** → it self-heals to the roster on its own (guard shipped in v82+). If anything else looks stuck, one browser refresh resumes the demo where you left off.
- **Deck emergency** → it's a single static page; it also prints to PDF (File → Print) as a no-network fallback.

6 CLOSE + LEAVE-BEHIND

- Land on slide 12: **pilot one group** (a team or an off-season lifting group), roster + first cycle set up together, staff feedback sets the build order.
- Pricing is verbal in the room. Anchor: flat annual site license for the school, unlimited athletes and coaches; paid season pilot credited toward year one.
- Afterward, send the deck link — it's public and works on their phones.

CHEAT SHEET

Deck	<code>buildtraining.vercel.app/deck</code> · arrows / space · click right side = next · tap splash to skip
Demo	<code>buildtraining.vercel.app/demo</code> · user sonate · pass Sonate-Skins-44281
Theme	Demo bar → palette icon → Wadsworth Grizzlies · backdrop: Default / Off-white / Off-black
Roles	Demo bar → Coach ⇌ Athlete (athlete = Jordan Rivera, RB/DB, Sr)
Reset	Exit + sign in again = clean slate · or Settings → Reset demo data
Board	Five lifts: Clean · Bench · Squat · Deadlift · OHP · + 5-lift total (top: Santos 1,445)
